- document, review, and edit patient health information including but not limited to problem lists, medication lists, medication allergy lists, family health history, and all aspects of the patient's eye exam,
- perform CPOE (computerized provider order entry) for medications, laboratory orders and imaging procedures,
- electronically create prescriptions and prescription-related information for electronic transmission to pharmacies,
- measure CQMs (clinical quality measures) and to export these in standard file formats,
- be alerted to possible CDS (clinical decision support) interventions, and
- Report information to PHAs (public health agencies) and clinical data registries.

Types of Costs or Fees and Additional Types of Costs or Fees

EyeDoc EMR Version 10.1 solution includes one-time software license and implementation / setup fees and a monthly subscription fee (which includes support and upgrades). These fees are determined based on the number of providers and additional fees are required to increase the number of providers.

Onsite training is available for separate per day fees.

E-Prescribing, Secure Mail and Patient Portal are an additional cost in the EyeDoc EMR V10.1 for all clients

Additional software may be required dependent upon any other installed programs apart from The EyeDoc EMR Version 10.1 (i.e., Peripheral and/or Imaging device interfaces such as Visual Field, Automatic Refractors, Corneal Topography, etc). Separate fees may apply depending on the software or device manufacturer/vendor. The PennMedical Fee for device integration is based on whether the peripheral or imaging device is Screening (data only) or Imaging (Data + Images). Fee includes a one-time implementation charge and an annual maintenance fee

American Academy of Ophthalmology (AAO) patient education documents are available as an annual subscription. Subscription Fees apply and are subject to automatic annual renewal.

Penn Medical does not charge any additional fees for electronic integration with the following public health registries at this time, IRIS.
