

HIPAA Compliance

EYE CARE LEADERS

Privacy. Security. Peace of Mind.

At Eye Care Leaders, we want to ensure eye care practices keep their patients' data secure and minimize the risk of penalties.

Practices today face a greater risk of PHI data breaches from internal and external threats, such as:

- **Ransomware**
- **Stolen records**
- **Lost or unsecured laptops, smartphones, and other digital devices**
- **Increased HHS audits and more**

Penalties for privacy breaches and/or noncompliance of HIPAA policies have grown 500 times in the last 8 years, with fines increasing from \$100 to \$500,000 or more per violation. Compliance with all the requirements is mandatory and complex, and most practices fail to fully safeguard their practices.

It's time to protect your patients and your practice.

myCare HIPAA Compliance from Eye Care Leaders gives you the assurance that your patients' data is secured and your practice is protected from privacy and security threats.

Adherence to privacy and security laws is the responsibility of everyone in an eye care practice, and myCare HIPAA Compliance helps them become compliant. Eye care professionals must act to avoid incurring data and financial losses. myCare HIPAA Compliance guides eye care practices in the education, steps, and documents required to assess their practices' risks, and secure their data.

COMPLIANCE PERFECTED

myCare HIPAA Compliance delivers the guidance, tools, and resources to ensure you have the correct privacy and security requirements in place.

EVALUATE your practice

ASSESS—we analyze your practice's current risks and threats

PLAN—we create an action plan to correct noncompliant policies, workflows, and physical and digital standards

SAFEGUARD your PHI

EDUCATE—staff training through HIPAA eLearning sessions

IMPLEMENT—guidance on security, technical, and physical safeguards best practices to accomplish Confidentiality Integrity Availability (CIA) of data

DEVELOP—HIPAA Privacy & Security policies, procedures, and workflows

PROVIDE ongoing training and assurance to meet yearly requirements

AUDITS—ensure every area required by the security rule demonstrates compliance

DOCUMENT—ensure employees meet training requirements at the time of hire and annually thereafter

Our complete solution ensures compliance with privacy and security laws:

- Protect your patient's data
- Guidance from HIPAA experts
- Meet privacy and security requirements with a single solution
- Ensure compliance on an ongoing basis
- Reduce administrative burden, so you can focus on your patients

fully integrates with all Eye Care Leaders Solutions designed exclusively for modern eye care practices.
