myCare | INTEGRITY

Bringing together the best EMR technology and a team of committed support staff, Eye Care Leaders created myCare Integrity, the highest performing eye care EMR available today.

EFFICIENT TRANSITION: From assembling an interdisciplinary transition team in support of your launch to optimizing myCare Integrity to your workflow, Eye Care Leaders works with each customer to provide a customized approach to data migration, staff training, and go-live.

EASE OF USE: Designed to be far and away the easiest solution for ophthalmologists and optometrists, myCare Integrity not only conforms to the way your practice has always worked, but makes it easier and faster to do what you do. Expect no lost revenue or declining cash flow due to your new EMR purchase or conversion.

TRANSPARENT VALUE PRICING: As a cloud-based software solution, myCare Integrity is an innovative, web-based EMR platform that spares you the worry and hassle of start-up costs, in-house technical expertise, and sizable capital expenditures. Our pricing model is simple, transparent, and fair.

COMPLETE MOBILE ACCESS: myCare Integrity makes it easy for your staff to have complete access to the data you need. Enjoy secure access to patient records and other data anytime and anywhere from any Web browser using any connected PC, Mac, tablet, or smartphone.

Developed in an intensive clinical setting and built exclusively for eye care practices, myCare Integrity elegantly addresses the real needs of practicing eye care professionals. Intuitive and easy to learn, it matches your existing workflow so well, your staff will immediately know where they are in the patient encounter.

EXPECT
MORE

We believe our clients deserve the same quality in an EMR partnership as they provide to their patients, which is why we strive to customize, support, and improve myCare Integrity for each client.

Practice Configurable

Built only for eye care practices, myCare Integrity is ready "out of the box" to seamlessly accommodate eye care workflows. Eye Care Leaders' support team trains practices how to configure the workflow on their own through a simple user interface. Many EMR companies charge extra for custom templates, but support is included in our standard pricing.

Diagnostic Connections

Eye Care Leaders connects your compatible diagnostic devices, integrates your practice management system, helps you easily set preferences and edit lists, and makes sure everything functions in a seamless, intuitive, extremely efficient manner. If you're converting from an existing EMR, we'll convert your existing patient charts.

Data Migration Planning

A data migration plan is essential for a smooth transition. Eye Care Leaders will help you formulate a comprehensive data migration plan. Our team has helped hundreds of practices transition to EMR—unrivaled support through that transition makes us a true partner to your practice.

Built-in Compliance

Eye Care Leaders' myCare MIPS Assurance offers practices an easier way to handle MIPS reporting and secure the reimbursement you deserve. Our product team has distilled the requirements specific for the ophthalmic workflow that will make your path to regulatory compliance simple. Plus, our Client Services Team is here to help address any questions you may have along the way.

Comprehensive Ongoing Support

Comprehensive support is a basic part of the myCare Integrity package. Unlike other EMR companies, there are no additional charges for Eye Care Leaders' ongoing support. Upgrades and new features also happen automatically via the cloud.

myCare Integrity revolutionizes the way an EMR system can be adopted and leveraged by an eye care practice.
