EYE CARE
LEADERS

**Solving Operational Challenges to
Allow More Time for Your Patients**

The reason you entered into the healthcare field was to provide care, but the myriad of labor-intensive operational challenges can hinder that goal.

Government regulations, billing and payments, as well as retaining and acquiring the right patient mix all affect the performance of your practice.

myCare Services can be added to myCare iMedicWare, myCare Integrity, or your own platform to optimize your practice's operations and revenue.

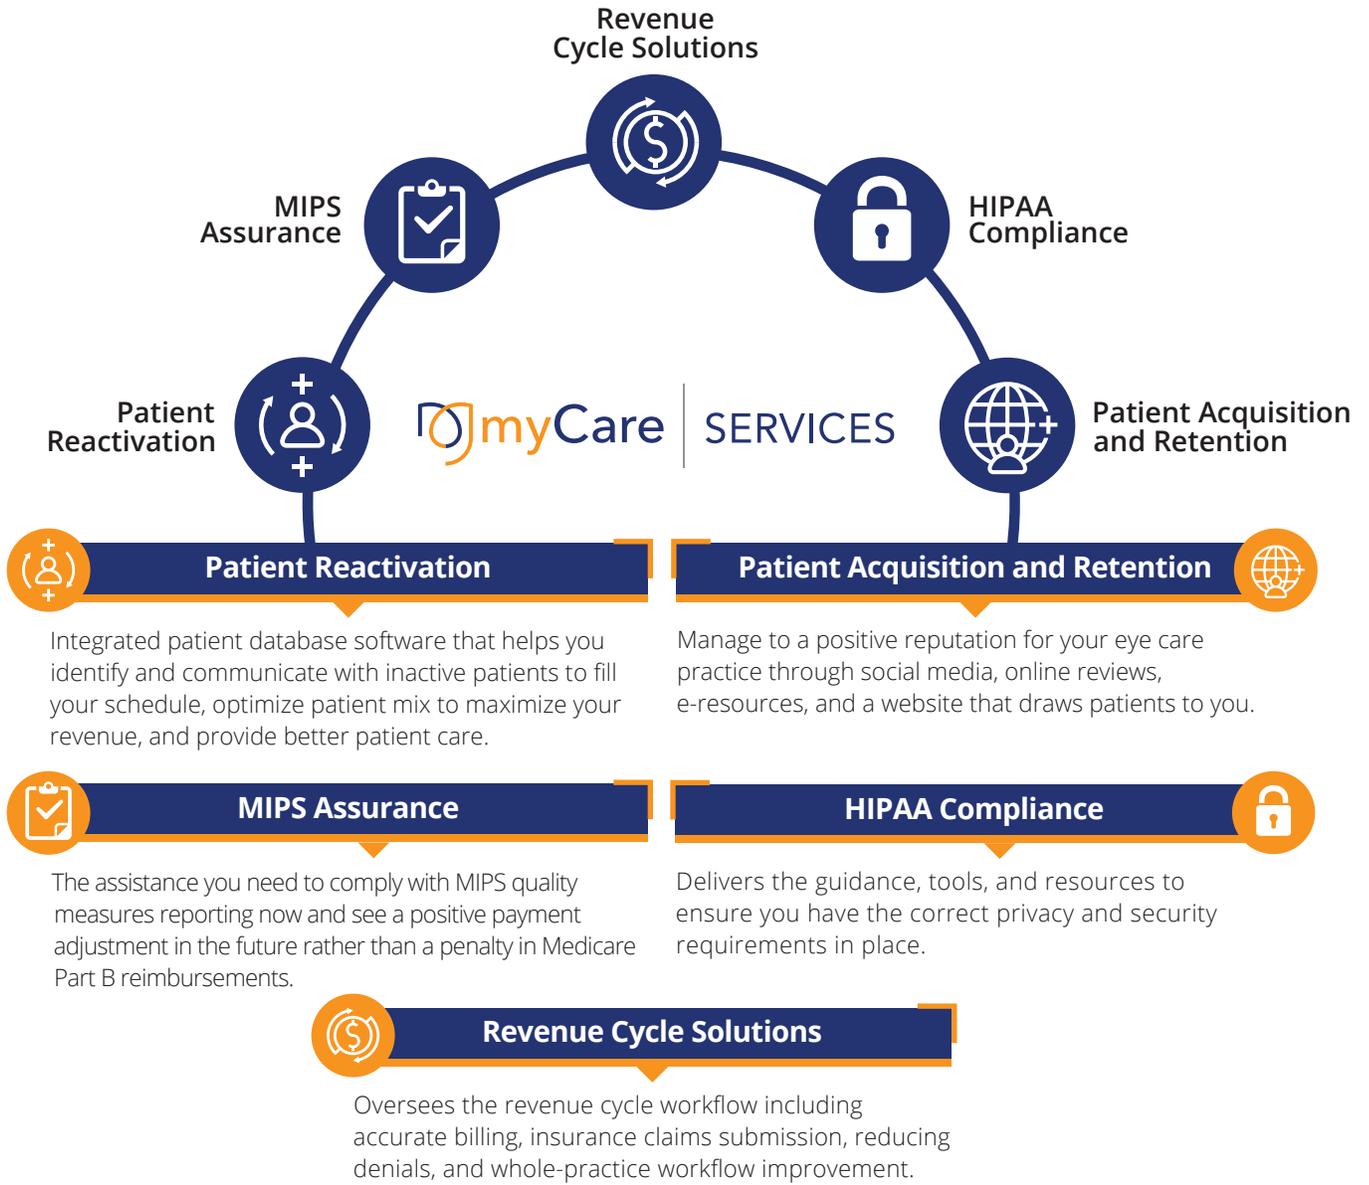

These a la carte services include Revenue Cycle Solutions, Patient Acquisition & Retention, Patient Reactivation, MIPS Assurance, and HIPAA Compliance. Allow these services to optimize your practice's operations to give you peace of mind and let you concentrate on your patients.

According to the American Medical Association, most practices leave up to 30% of potential revenue on the table every year.

FOCUS ON YOUR PATIENTS

We'll help you handle the rest.

According to The Physician's Foundation, only 14% of physicians say they have the time they need to provide the highest standards of care. At Eye Care Leaders, our mission is to be your partner in helping you create your ideal eye care practice—one that gives you freedom to care for your patients and succeed financially. To attain that kind of practice, you need the right tools and expertise to get you there.

Add-on services to myCare iMedicWare, myCare Integrity, or your own EHR and PM to optimize your practice's workflow to allow you to concentrate on your patients.

For more information on myCare Services, call Eye Care Leaders at (855) 685-3292 or visit eyecareleaders.com.

EYE CARE LEADERS

Our Vision: Your Success.
