Make **RETAIL OPTICAL**
a Natural Extension of the Eye Care Experience.

myCare iMedicWare Optical allows your practice to process sales for professional services and eyewear with speed, accuracy, and efficiency.

The ideal point-of-sale screen for your eye care practice or optical retail outlet, myCare iMedicWare Optical's Quick Order feature is a convenient way to create orders, fill prescriptions, add payments and more—all on one screen.

From patient to customer. Make it a smooth transition into the retail setting by providing a swift, high-quality service experience. And in the process, serve a larger number of customers and make more sales.

myCare iMedicWare Optical makes the ordering of eye wear and contact lenses an easy, intuitive process for everyone involved.

myCare iMedicWare Optical is all about bringing simplicity to core functionality you'll use repeatedly: point-of-sale transactions, inventory management, communication with optical labs and shipment tracking. What's more, our system integrates with your EHR to auto-populate patients' optical data.

Easy on the Eye Wear

SALES TEAM

myCare iMedicWare Optical doesn't hinder sales; it facilitates them. Leverage to maximize your optical revenue stream, while delivering a continued high-level service to your customers.

myCare iMedicWare Optical FEATURES

Patient Orders & Payments

- Fill order details on a single screen from patient's prescription and demographic information.
- Apply promotions and coupons, calculate promotional discounts automatically.
- Process adjustments, write-offs, and balance transfers.
- Easily search orders by order number, date, patient name, etc.
- Transmit orders to labs and track their status.

Insurance Processing

- Automatically determine the patient's due, insurance due, and discounts based on insurance fee schedules.
- Calculate patient and insurance balances based on discounts, sales taxes, and insurance plan benefits.
- Accept patient and insurance payments, generate insurance claims, and process refunds and store credits.
- Generate a claim for every line item in an order simply and quickly.

Inventory & Transactions

- Print lab orders, receipts, and letters.
- Mail-merge order data into custom letters and forms.
- Instantly send orders for contact lenses from the order screen to the distributors and quickly track FedEx, UPS, and USPS shipments (Internet connection required).
- Handle payments for multiple orders or multiple patients efficiently.
- Manage return, exchange, reprocessing, and warranty transactions.

myCare iMedicWare Optical is fully integrated with the rest of the myCare iMedicWare platform, including EHR, PM, and Portal. It also integrates and interfaces with numerous peripheral point-of-sale devices, as well as medical devices and diagnostic equipment, lab software, and more.
