EYE CARE  
LEADERS

The Perfect **PRACTICE MANAGEMENT SOFTWARE** for Eye Care Practices

**For a smooth-running, profitable practice with short wait times and no excessive paperwork, Eye Care Leaders has you covered.**

myCare iMedicWare Practice Management streamlines the routine tasks that inundate eye care provider offices but make a real difference in your patients' experiences and the financial performance of your practice.

**Keep your eyes on the prize.** Give your team the tools to effectively handle the administrative side of your practice, while you remain focused on delivering high-quality eye care.

### **myCare iMedicWare Practice Management**

is the second key component of the myCare iMedicWare integrated solution.

ECL's sole focus on eye care professionals makes all the difference. Designed specifically to complement and enhance the preferred workflows of ophthalmologists and optometrists, myCare iMedicWare Practice Management fits the way you work.

# MAXIMIZING

## Care and Compensation in Theory and in Practice.

myCare iMedicWare Practice Management provides everything you need to run an efficient, profitable eye care practice. Streamline your patient registration and scheduling, insurance verification and eligibility, coding and billing, even staff training. myCare iMedicWare Practice Management empowers your team to maximize patient flow, customize superbills, produce cleaner claims, reduce billing errors, increase record and report accuracy, and facilitate regulatory compliance.

### myCare iMedicWare Practice Management FEATURES

#### Organized and Profit-Driven Scheduling

Consolidated and effectively organized to maximize the number of patients on any given day, myCare iMedicWare Practice Management's resource-based scheduling allocates technicians, rooms, and equipment in the most advantageous way possible.

#### Front Desk Modules and Highly Efficient Coding and Billing Systems

Created by healthcare financial professionals, myCare iMedicWare Practice Management helps verify insurance and collect copays, ensures correctly coded and clean claims, reduces denials, and assures timely and accurate collections. The results are reduced AR days and better cash flow.

#### Custom Reporting

Generate revealing custom reports with myCare iMedicWare Practice Management that will help improve practice productivity. For example, you can create and run a report designed to identify the least productive areas of your practice. It's also easy to aggregate data from multiple reports, all in one place.
