The Regulatory Compliance Platform Version 1.2 is a cloud-based modular application that when used in combination with other Health IT Modules forms a complete CEHRT solution for healthcare professionals in ophthalmology and optometry in outpatient ambulatory environments. It allows users to perform a wide range of functions such as:

- Monitor MIPS Performance and provide Promoting Interoperability calculations for the Medicaid EHR Incentive Program for ECs.
- Report information to PHAs (public health agencies) and clinical data registries and allow integration with APM entities.
- Create "gold standard" electronic health information documents required for referrals, transitions of care and to share with the patient
- Send/receive messages and attached documents to/from the HISP via Direct Edge Protocol.
- Bulk export of CCD files

Types of Costs or Fees and Additional Types of Costs or Fees

There is no additional cost associated with the Regulatory Compliance Platform Version 1.3 and is provided as part of a complete CEHRT solution in conjunction to the EHR (electronic health record)

Limitations (Contractual/Business)

The Regulatory Compliance Platform Version 1.2 is used as part of an EHR solution package and is subject to the same contractual limitations as the specific EHR that is chosen by the client. Only EHRs that are within the Eye Care Leaders line of Health IT products may integrate with the Regulatory Compliance Platform Version 1.2

This Health IT Module is 2015 Edition compliant and has been certified by an ONC-ACB in accordance with the applicable certification criteria adopted by the Secretary of the U.S. Department of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services.
